DETAILED ACTION

Allowable Subject Matter

- 1. Claims 5-7, 10, 11, 13, 14 16 and 17 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:
- 2.1 Claims 5, 10, 13 and 16: The current invention claims a method and system for setting the bandwidth of a mobile station's second channel during handoff. The bandwidth is set to the smallest available channel bandwidth polled from a plurality of base stations communicating with the mobile station through a first channel.

Chin (US 6,6990,938) teaches during a soft handoff, supplemental channels are allocated to maintain channel symmetry (column 6, lines 57-65). Chin fails to teach selecting the supplemental channel bandwidth to the smallest bandwidth available from a plurality of base stations.

2.2 Claims 6, 7, 11, 14 and 17: The current invention claims a method and system for setting the bandwidth of a mobile station's second channel at the start of handoff.

The second channel, which is in communication with a source base station and a target base station, is set to a smaller bandwidth available if the target base station does not have enough bandwidth resources.

base station lacks bandwidth resources.

Chin (US 6,6990,938) teaches that during a soft handoff, supplemental channels are allocated to maintain channel symmetry (column 6, lines 57-65). Chin fails to teach setting the supplemental channels bandwidth to a smaller bandwidth when the target

Page 3

Takao (US 6,871,071) teaches that at a handoff, if a target base station does not have sufficient radio resources, the radio resources are re-allocated at the target base station (figure 22; column 2, lines 5-20). Takao fails to teach re-allocating radio resources for both a source base station and the target base station.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Simon Sing whose telephone number is 571-272-7545. The examiner can normally be reached on Monday - Friday from 8:30 AM to 5:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang, can be reached at 571-272-7547. The fax phone number for
